Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Friday 17 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mostly fine and dry with warm sunny spells.

Today:
Any early mist and fog patches soon lifting and breaking. A fine day then follows, with warm sunny spells but also variable amounts of cloud. Some thicker cloud affecting northwestern hills at times, however, with rain or drizzle possible. Maximum temperature 22 deg C (72 deg F).

Tonight:
Mainly dry with clear spells at first. Low cloud thickening in places overnight, and where clear skies persist fog patches are possible by dawn. Northwestern parts cloudier with some rain. Minimum temperature 11 deg C (52 deg F).

Saturday:
A rather cloudy morning with outbreaks of rain and drizzle. Cloud potential breaking to give some afternoon brighter or sunny spells, but also the odd heavier shower. Maximum temperature 21 deg C (70 deg F).

Outlook for Sunday to Tuesday:
Early mist and fog lifting Sunday morning, with brighter spells but also heavy showers following. Drier with some brighter intervals Monday and Tuesday, but light rain still possible at times.
